A Better Way to Doing Hotel Business

Driving customer loyalty through consistent and personalized guest experiences.

Doing more with less via easy-to-use, intuitive, and fully customizable interfaces.

Consolidating data of all properties and guests at a global level into one single view.

Cloud-ready for easy deployment & training anywhere in the world

Mobile-ready for access to insights and functionality on the go.

Shifting IT burden to Infor & TRG experts to reduce IT costs and headcount.

A Robust and Secure Cloud Foundation

We partner with Amazon Web Services® (AWS) to deliver the most flexible, reliable, scalable, and secure cloud PMS with the highest-quality global network performance available today.
